

# Architectural and design

Group: Shahd Mustafa, Mike Nasser, Nathaniel Leonardo, Hassan Radwan, Hussen Al-Jubury

# Introduction

- Purpose
  - Overview of the project, taking a look at the main goals, objectives, and expected challenges
- Scope
  - A brief look at the intended scope of the splitsmart application

# Architectural Goals

1. Scalability
2. Reliability
3. Security
4. Usability

# Architecture Restraints

1. Platform compatibility
2. Performance
3. Integration
4. Compliance

# Use case view

- **User login**
- User registration
- **Payment information**
- Manage groups
- **New expense**
- Split expense
- Assign expense
- **Customer report**
- Expense notification
- **Payment**
- **Homepage**
